A clandestine cell system is a method for organizing a group of people such as resistance fighters, sleeper agents, or terrorists so that such people can more effectively resist penetration by an opposing organization (such as law enforcement).. In a cell structure, each of the small group of people in the cell only know the identities of the people in their cell.

Clandestine cell system - Wikipedia

Without a consistent and reliable business model, it's next to impossible to scale your business. By having an operations manual to store your SOPs and important internal data, you can easily onboard new employees and identify the factors limiting your ability to scale.
