Be sure that you have read and understood its contents before using the camera. For information on related products, visit our website at

### BLO2401-102 X100S

The manual focus ring barely works on the X100, so I presume it's not that great on the X100S either, regardless of the fancy displays. No worries; no one actually uses the manual focus ring. For manual focus, select MF with the slide switch, then just tap the rear AFL/AEL button to spot-focus.

### Fuji X100S Review - Ken Rockwell

One of my two cameras is the Fujifilm X100F, which offers manual focus, and has some "Focus Assist" features which are really useful. First, you want to set the camera to use both auto and manual focus. Go to the AF MF Menu and turn AF+MF On. This means that the camera will use auto-focus when you press the shutter halfway.

### Tips for Using Auto and Manual Focus on the Fujifilm X100F ...

Use BUTTON/DIAL SETTING > FOCUS RING to reverse the direction of rotation of the focus ring.. To use autofocus to focus on the subject in the selected focus area, press the AEL/AFL button (the size of the focus area can be chosen with the rear command dial). In manual focus mode, you can use this feature to quickly focus on a chosen subject using either single or continuous AF according to the ...
