It's disappointing that there's no convenient menu that lets you just browse freebies. Instead, you have to search for your preferred genre, plus the word 'free' (free science fiction, or free history, for example). It works well enough once you know about it, but it's not immediately obvious.

How To Do A Hill

A motorbike hill start is tricky as you'll select the gear while keeping the clutch lever in then put your left foot back on the ground for balance. Use the front brake to hold the bike in place. Give it some throttle and gradually release the clutch lever. As you feel it biting, balance the throttle and release the brake. As the bike starts moving forward you'll be able to put your feet on the pegs and keep your balance.
