Multiplication of Polynomials Worksheets. Explore these multiplying polynomials worksheets with answer keys that consist of a set of polynomials to be multiplied by monomials, binomials, trinomials and polynomials; involving single and multivariables. Simple word problems to find the area and volume of geometrical shapes have been included as well.

Multiplying Polynomials Worksheets

When multiplying polynomials, it is critical that we correctly implement the distributive property of multiplication. Every term in one polynomial must be multiplied by every term in the other polynomial. It is so tempting to ignore this rule, but you are sure to have a wrong answer if you do. Let's look at an example.
