Physical Chemistry Levine 6th Edition

This book was written for Physical Chemists by Physical Chemists. I can see the appeal to some (including me), but it can be very hard to understand because it's so formal. However, I appreciate the specificity of the notation. I wouldn't recommend this book over Physical Chemistry: A Molecular Approach by McQuarrie, but having both is a great ...

The physical chemistry text by Levine is a detailed text which I believe is best suited to the graduate student level. Someone who already has a basic understanding of physical chemistry, a solid calculus base, a course in matrix algebra, and a differential equations course can profit most from the detailed explanations in this book.
