Sewer Solution Model 5
SewerSolution® System, Boxed. The All-In-One AFFORDABLE Macerator System (1/3 the price of electric macerator systems plus no installation cost!) PUMPS: Strong enough to pump up to 100 ft. or even 3 feet uphill. Patented system uses the "Venturi Principal" with as little as 15 psi. CLEANS: Swivel jet nozzle cleans the whole system after dumping. I like the ease and versatility of the Sewer Solution and it does work-I would have given it 5 stars. However, after only 4 uses (and it is stored properly) the cheap plastic fittings for the quick hose connect and back flow preventer leaked and sprayed fresh water all over.

I added a 5" section of clear sewer pipe and a 45 degree elbow to connect between the Sewer Solution and the waste tank outlet. This allows me to see when the tanks are running clean when flushing. I leave the clear pipe fittings connected to the Sewer Solution all the time so there is no concern about breaking the barbs on the Sewer Solution ...
